

NGUYEN THANH DUOC

GAME QA/GAME TESTER

📍 Go Vap, Ho Chi Minh City ☎️ 079 209 7025
✉️ thanhduocok25122003@gmail.com

CAREER OBJECTIVE

Develop in **Game Testing and Quality Assurance** by applying an Information Systems background, analytical thinking, attention to detail, and player behavior analysis. Interested in gameplay testing, issue identification, quality control, and improving player experience.

WORK EXPERIENCE

AI Media Specialist — Pierre Cardin 12/2025 – Present

- Managed AI content production from ideation to final output.
- Tested and compared multiple implementation approaches using Generative AI and Prompt Engineering.
- Checked output quality, consistency, visual experience, and project requirements.
- Identified and prioritized issues based on their impact on final results.

Data Labeling Specialist — Alchera 08/2025 – 11/2025

- Processed and labeled AI training data with high accuracy and consistency requirements.
- Followed detailed guidelines and reviewed exceptional cases requiring careful evaluation.
- Identified data inconsistencies and quality issues according to established processes.
- Developed strong attention to detail, pattern recognition, and quality control skills.

Livestream & Sales Operations — Tan Loc Phat VN / Shopee 07/2024 – 06/2025

- Observed user reactions, questions, and engagement in real time.
- Analyzed user behavior to identify issues affecting engagement and experience.
- Adjusted communication and content based on real user feedback.

PROFESSIONAL SKILLS

Game Testing & QA

Gameplay Testing, UX & Player Behavior Analysis, Onboarding & Flow Analysis, Progression & Difficulty Analysis, Friction Point Identification, Issue Identification & Quality Control, Casual/Puzzle Games

Product & Analytics

Market & Competitor Analysis, Player Experience Analysis, Product Thinking, Feature Prioritization, Data & Pattern Analysis, Evidence-based Problem Solving (Observe → Identify → Analyze → Test → Improve)

Technical & Dev

Python, SQL, PHP, HTML/CSS/JavaScript, MySQL

Design & AI Tools

Generative AI, Prompt Engineering, AI Agent Coding, Figma, Visual Paradigm, Git/GitHub, MS Office

PROJECTS

AI Food Recommendation Chatbot — Developer

2025

github.com/NguyenThanhDuocOk/chatbot

- Developed an AI-powered food recommendation chatbot using Python.
- Integrated LLM, RAG, and Microservices.
- Personalized recommendations based on user needs and preferences.

Hao Quang Chain Website — Academic Project

2024

github.com/NguyenThanhDuocOk/haoquang

- Designed MySQL database architecture and developed UI/UX using PHP.
- Translated user requirements into system structure, user flows, and functional features.

EDUCATION

Industrial University of Ho Chi Minh City (IUH)

Expected Graduation: 2026

Bachelor of Engineering Major: Information Systems

ACHIEVEMENTS

Top 30 — InnoGreenLife Innovation Startup Competition

2026

Role: Team Leader

Lead the team through idea development and competition implementation, gaining experience in teamwork, problem solving, and progress management.

EXTRACURRICULAR ACTIVITIES

Rosary Youth Group

2021 – Present

Role: Member & Logistics Support

Member of a non-profit organization, participating in 5 social outreach trips to highland areas. Managed logistics, supported event organization, and collaborated with team members during on-the-ground activities.
